### A PLEA TO END ABORTION

**Infanticide.** The precise term for “abortion.” Why do we want to kill babies? Innocence not yet given the chance to live life. Who are we to decide their fate, we who have been given the chance to live? Mothers, even fathers, who are despairing and feel there is no other course to be taken, please rethink this grave sin you will be committing. You are being urged to STOP AND THINK before you destroy something so beautiful and so adored in the eyes of God. It is not up to you; it is *not* your body despite your believing that you alone own the person that is you. God created you. God gave you life through your parents and the generations before them. You stem from a long line of forebears all created by God who created you. Think long and hard on this truth before you consider to end the life of one so innocent and precious.

Many young mothers are of the belief that they can do as they please with their bodies, inside and out. The flesh is the temple of the soul which belongs to God. Our bodies are temporary shelters for our spirit bodies; the soul that goes on after we pass from our earthly domain. Many mothers and fathers are not Catholic nor do they believe in God. Their sins, therefore, cannot be forgiven if they do not understand that one must repent and atone for every sin. If sins are not forgiven, salvation will not be open to the sinner.

This is a genuine plea of hope for beleaguered parents, and for the single mother who feels she has not the means of supporting a life when she can barely support herself. There is always a way. God steps in when we feel we cannot go on, when we struggle continually without help. He gives us only what we can handle and no more.

As the years go by, the stain of abortion becomes a permanent wound on the hearts and minds of those who participated in infanticide, willfully or not. The memory of this heinous deed does not diminish with time for those who understand what they had done. The repercussions are lifelong and life-changing, even more after the accepted birth of other children.

## Rekindle Your Faith

Abortion is murder. If mothers and fathers knew what the process of aborting a fetus in the womb entails, they may be more inclined to walk away and spare the precious life that God graced upon them. There are many ways to learn how this horrible process of torture is undertaken, and one significant avenue to seek out is the Pro-Life organization headed by (Fr.) Frank Pavone, ***Priests for Life***. This organization is a blessing for all who have been a party to abortion: parents, nurses, and doctors alike. There is hope and healing after abortion, only, however, if you atone and repent for this great offense to God.

If you do not know God, find Him. He is waiting for you to come to Him. He will help you through your darker days, and through prayer and faith you will know Him and feel a connection to Him that will definitely change and inspire your life forever. This is a heartfelt plea to save a life and to save your soul. Help end abortion by standing up for the blessed soul inside you and charging the politicians who godlessly promote this grave sin as being complicit to murder. These government officials must be stopped now from promoting infanticide beginning with the 2023 White House and administration who continually ignore God and human life in more ways than we can see. Write, call, comment on social media and tell them to STOP...NOW! Take charge of your body leased from God and insure that it is kept sacred.

Furthermore, this is a plea to all government officials who continue to support and push abortion, all terms: RETURN TO GOD and STOP promoting sin upon humanity as if it is a good thing. It is EVIL! Cease and desist, and if you cannot, then you do not belong in a position of authority over all.

May God Bless young parents and help them to accept what has been given to them with loving, open arms. Life is to be cherished and not forsaken.
